A new gasoline hoist has been received at the camp this week and will be put into operation at once. Large bodies of high grade lead ores, carrying gold and silver, have been developed, and roads are being built from the mines to the smelter site. Work upon a 100-ton smelter will begin at once, and it is intended to have it completed and blown in by the fifteenth of March. About fifty men are now employed in development and all who come looking for work are employed.

Acetylene Gas.

Be independent of gas and electric light corporations and own your own lighting plant. The National generator does not have to be cared for oftener than once in fifteen days. It is positively safe and is recommended by all insurance boards. We light residences, churches, stores, factories and towns at 40 per cent less than other systems with double the illumination. To responsible parties will ship machines on thirty days' trial. Send for free booklet on acetylene gas. We want good agents.
